Required and/or Recommended Personal Protective Gear

Reflective vest or uniforms

Slip resistant work shoes

Work gloves

Back brace only when loading full bins

Job Description

Deliver empty totes and loading for full totes weighing approximately 2500 pounds each.

Potential Hazards

Backing into facility from Vernon Ave a very heavily traveled street into a narrow entry that may already have tractor trailer in location.

Heavy automobile, pedestrian and forklift traffic at all times

Inside floor of trailer is very slick from moisture and bakery products

Multiple Slipping and tripping hazards when loading and/or unloading due to moisture on trailer floor, wet ground on area totes are stored and loaded/ unloaded

Possible falling hazard when moving containers with pallet jack

Possible crushing hazard due to forklift and other commercial vehicles activity

Pinching hazard when loading full totes in trailer

Falling, twisting or spraining ankles when entering/ exiting trailer

Hazard Prevention

Use caution when moving containers at all times

When using pallet jack use caution and proceed slowly and away from back of trailer

Keep trailer floor as clean and dry as practical

When backing into or exiting facility use extreme caution, use hazard lights and backup alarm and if possible use a spotter if available.

Get out and look as often as necessary

Stay clear of forklift traffic as much as possible

Use provided back support brace only when loading full totes, remove when completed

Make sure load is properly secured before moving vehicle

Operation 2

Operation 1 continued
